

## OWINGSVILLE OUTLOOK.

OWINGSVILLE, KY.  
SATURDAY, JUNE 21, 1906.

THURSDAY, JUNE 21, 1906.

MISS HENRY has Dollier for

the President. The following one

is being on Dollier.

The State Republican Committee

has called a convention at Louisville

July 17th to nominate a candidate

for Governor.

BRUCE CARRIERS was rewarded

by the Louisville Goebellin convention

with the nomination for State

at large Presidential Elector.

There is some talk of the Chinese

being sent to the Chinese

missionaries to convert the native

to the Christian faith.

EMERSON WALKER of Germany is

the president of the Goebellin

missionaries in Europe, and

has been elected to the position

that is to make Germany's navy

very formidable.

BECKHAM, Black, Lewis and

Smith are the members for the

Goebellin mission in Europe, and

it is the field against Beckham

that is to make Germany's navy

very formidable.

There are nearly four hundred

million people in the Chinese

missionaries to convert the native

to the Christian faith.

BECKHAM, Black, Lewis and

Smith are the members for the

that the Chinese did not so much

object to Christianity as the

well-paid superstitious foreigners

who were sent to China to

preach. The average missionary

said the old village, however

lacked the interest of the new

tolerant Christians, and he thought

it would be impossible to the

benefit of all concerned if the

missionaries were confined to

places where they were already

settled, and where they could

work with a more successful

adult.

"In this connection, it is curious

that rumors were in circulation

in diplomatic quarters a few days

ago that the Russian Government

had made inquiries as to the

possibility of Europe and America

permitting the Chinese Government

to place certain restrictions on the

immigration of missionaries, such

as confining them to the treaty

ports. According to the current

report, the British Government

has already declined such a

suggestion, and the Russian

Government has also declined

to do so.
